Dear Messrs. Wishart, Marshall and Banack:

I am writing in response to your correspondence of November 9, 2009, in which you request that issues of public access and railway service to producer cars and their sites be examined by the Rail Freight Service Review Panel.

I have read with interest the concerns you have raised with respect to the administration, provision and operation of producer cars in Western Canada.

Should you wish to make a formal submission to the Rail Freight Service Review Panel, more information on how to do so is available online at www.tc.gc.ca/policy/acg/rfs-review-examen-sfm/hw-eng.htm.
