Dear Don:

On behalf of the Board of Directors, as well as the participants and organizers of CAHRC's National forum, I wish to express our collective thanks to you for your attendance and for your presentation to those assembled on June 16th in Calgary. Your support of this initiative was very much appreciated.

Your presentation on the Saskatchewan Institute of Applied Science and Technology's on-site training program, its challenges and future role in skills development assisted in providing the forum for a productive panel discussion.

I also wanted to express our appreciation for your willingness to accept our invitation to speak on such extremely short notice. Not only did you help us to complete our agenda for the day, but the subject matter you covered also added a key element to the overall session.

Again, thank you for your participation; it helped to ensure the National forum in Calgary was a great success.

Yours sincerely,

Danielle Vinette
Executive Director
